

Cash The First Of Every Month

Beginning the first of March, I am going on a 30-day cash business. All accounts to be paid the first of every month. After your careful consideration of this matter I believe you will agree with me that this is the proper way to do business. Owing to the money conditions that now exist it is pretty hard for a merchant to make satisfactory arrangements to carry so many long accounts. All old accounts due March 1st.

They propose to begin immediately making material improvements to the garage, on the east side, among which will be the putting down of a concrete floor, installing of steam heat, free air accommodations, and improved light. While these improvements are being made, they will show their cars, "The Dodge Brothers Car," for which they are agents, at the Frank Foster harness shop, where they will be glad to "show you," the car of the day. They will also handle all lines of automobile accessories. The firm as individuals need no introduction to the people of our country or our community. They have, since coming to manhood, been factors in the commercial and social life of our city, and are men who enjoy the confidence of our people, and command the respect and high regard of all who know them.
